Professional Experience

Three Ordinary Guys Studio (3OGS)

Córdoba, Argentina

Unity Developer/Game Designer

2023 - Present

- Developed different platform ports of games like ***We Need To Go Deeper***, ***Elderand*** and ***Storyteller***, fixing bugs and optimizing performance when needed.
- Developing a **proprietary graphics engine** to help porting games from less developed engines to current gen platforms.
- First place of our own GameJam session, designing and developing a horror game on the theme "senses" called ***Echoes of the Void***.
- Currently working on a port for **PlayStation 4/5**, **XBOX** and **Nintendo**, can't discuss further because of an NDA.

EANA (Empresa Argentina de Navegación Aérea)

Córdoba, Argentina

Systems Engineer

2022 - 2023

- As a **project manager**, I led and coordinated the project's development and established communication channels among all stakeholders.
- Developed **REApp**, a platform to keep track of every airspace request in Argentina and facilitate its analysis and metrics generation.
- Connected Google's Earth API into our own app to automatically generate the airspace request coordinates on screen.

Pensions and Retirements CBA

Córdoba, Argentina

IT Technician/Software Developer

2020 - 2024

- Developed a **WhatsApp chatbot** using JS to maximize efficiency answer times
- Developed a **warehouse system** that enables us to keep track of every PC's status that is working in our infrastructure.
- Integrated proprietary software components to the company's main platform and different servers

Education

Universidad Tecnológica Nacional - FRC

Systems Engineering

2023

- Developed our thesis with EANA as our client (***Empresa Argentina de Navegación Aérea***)
- Part of the CIDS (College's Systems Department)
